ACCOUNTING

Since its inception in 1988, our Accounting System has become a staple in Iron Data's structure. Impressively, over 70 customers run this system and can attest that processing errors are reduced through comprehensive management of financial disbursements. Not only do configurable functions allow for better adherence of the system to daily workflow, but on-demand receipt production and reporting reduces processing time and facilitates overall responsiveness. Plus, a centralized repository of all payment and activity reduces time spent on budget development and facilitates audits to prevent fraud.

Iron Data delivers solutions to automate governmental workflow, reduce redundant workload, improve efficiency and increase productivity.

Testimonials:

"The ability to print all month end reports and produce checks in a matter of minutes versus days says it all."

- Edward E. Tucker, Clerk of Superior, Magistrate and Juvenile Court

"Being able to track the growth of funds received over the past years provided me the justification I needed to get additional staffing."

- Gary M. Bell, Clerk of Superior Court

"To know that we get a clean bill of health from our auditors each year is certainly peace of mind."

- Rebecca G. Crowe, Clerk of Superior, State, Magistrate and Juvenile Court
